Men's Heavy Wool Underwear, \$1.00 Value

FOR 79

- This is one of the many bargains we are able to show from time to time.
- WHY?
- Because there always was and always will be manufacturers hard up for money, and they want it at once.
- They know they can always get cash at Bicknell's for genuine bargains, as soon as the goods are delivered.
- These shirts and drawers are slightly imperfect, yet none the worse for the imperfection.
- Colors natural grey and camels hair.
- Sizes, shirts 36 to 44; drawers 32 to 44.
- Don't allow yourself to miss this sale.
- See display in our west window.
- In addition to this special bargain we have 24 different numbers in men's heavy underwear to select from. We believe it is the best selected stock of honest underwear in any one store in New England.

Admiral Balch, U. S. N., Mrs. Balch, and Miss Agnes Balch of Baltimore, and Mr. and Mrs. Sears of Concord, N. H., are staying at E. L. Abbot's, Central street.

Anyone desiring to sell tickets for the coming minstrel show can secure them at the Townsmen office. It is hoped that many members of the Athletic Association will help in this way.

The Right Rev. Frederic W. Keator, D. D., will preach at Christ church next Sunday morning. Dr. Keator is the Bishop of Olympia, a diocese comprising the western part of the state of Washington. He has come from the Pacific to the Atlantic to take part in the General Convention of the Episcopal church, now in session in Boston.

The local association football team will play the Lynn eleven at Lynn on Saturday. An interesting and hard fought game is anticipated. The Andover line-up will be as follows: Backs, R. Moore, W. Matthew, (capt); half backs, W. Sterling, A. Haddon, A. Matthew; forwards, Falconer, Anderson, Dawson, R. Cairnie, W. Haddon.

The pupils in the Punchard and Stowe schools were dismissed yesterday morning owing to the lack of heat. This was caused by the fact that there was no coal at the plant early in the morning owing to the failure of a local dealer to have some there, but later in the forenoon, coal was secured and the Stowe school resumed its session in the afternoon.

On Tuesday evening next at the November Club house at eight o'clock, the dramatic department will give a play and this will be followed by dancing. This event will open the season and thither it is hoped all Andover will flock, for the house is open on this occasion to all lovers of fine acting, good music and dancing, irrespective of club membership. Tickets are 50c and may be obtained of Miss Boshier, Miss Gay and Mrs. McCurdy, or at the door.

On Monday evening Lincoln lodge No. 78, A. O. U. W., tendered a reception to District deputy Elmer C. Crowell of Lowell, when as usual, a most enjoyable evening was spent. A clam supper was served after which speeches were made by Mr. Crowell and members of the lodge which were full of hopes for the future success of the order. Nearly all the members of the lodge were present and the event is one which will long be remembered by all. The committee in charge proved their efficiency as hosts.

Will those who have promised quotations for the quotation calendar as far as possible send them to the collector at once. If not convenient to send, please have them ready to be called for before next Wednesday. If any who have not been solicited are willing to help in arranging the calendar to the extent of a short, pithy quotation, and ten cents (which goes toward the expense of printing) their help, sent to any one of the committee, will be gratefully appreciated by M. W. Burr, Emily Torrey, Helen White, Alma Bailey.

LOW PRICED PIANOS

For Practising Purposes

Square pianos are out of style and more of them come to us in exchange for uprights and grands than we can conveniently handle. We have fifty such now that must be sold. Most of these have 7½ octaves and are especially serviceable and useful for practicing purposes and can be obtained for about one-third the price asked for a good upright. At a later date, if desired, we will exchange these squares for new Ivers & Pond pianos, allowing practically all that may have been paid for the second-hand instruments. If inconvenient to call we can mail you a list of these pianos with our lowest prices. Payments as low as \$1 per month. Send for our list of bargains.

Pillsbury, George E.
C. H. SHATTUCK, P. M.

With an attendance so large on Saturday last as to fairly crowd Mechanics' building to the doors, smashing all records in the history of Boston's fair, the big exposition, under the auspices of the United Commercial Travelers of America, has proven itself to be a stupendous success. This week, as last, starts in with a phenomenal attendance, and it would seem as if Mechanics' building is the mecca for all New England.

The fair itself deserves success. In point of exhibits, instructive and amusement features, it has no criterion, and the attractions cover all fields in the industrial, educational and amusement world. The visitor finds in the mercantile and manufactured exhibits alone, everything from a jack-knife to a piano, an electric motor or an automobile, and for educational features, the Women's department, with all its varied exhibits pertaining to the home, the household, the school, workshop, and mercantile establishment. In this connection, it should be said that every prominent woman's club in the country is represented, and there are daily lectures on hygiene, cooking and serving food, the care of children, etc., etc.

The crowning feature of the second week will be the big automobile parade on Saturday, the Commercial Travelers' holiday. On this occasion the "drummers" will own the town. There will be fully a thousand motor vehicles in the commerce parade, which is set for ten o'clock from Mechanics' building, the route to be through the business centre of the city, and the parade is to be reviewed by the governor, the mayor and the president of the chamber of commerce.

Excursions to the fair are run from all points in New England.

FOOTBALL

P. A. 30: BOSTON Y. M. C. A. 0.

The Phillips Andover academy football team won from the Boston Y. M. C. A. eleven on Brothers field Saturday afternoon 30 to 0. The visitors were outclassed but put up a plucky fight. Andover's goal was never in danger, but at times the Boston team was able to make substantial gains through the Andover line. Once Porter broke through for fifteen yards. Most of the time, however, Boston was on the defensive and was unable to withstand the strong Andover attack.

Moorehead played quarter for Andover and kept the backs moving, calling for end plays repeatedly. Bullock always made his distance and several times he made long runs. Bartholomew did some clever line plunging and his punting was a feature. Twice he kicked a high one to the five yard line which resulted in touchdowns, the ball being fumbled and an Andover man being ready to grab it and take over.

Bates was tried at right end and Raftery, a brother of the Yale veteran, was also given a try at that position, both doing well. Hobbs was taken from full back and put in at tackle with excellent results. Porter and Smith did the best work for the visitors. There were several good plays on the team, but team play was lacking.

Andover lost the ball soon after the kickoff on a fumble but soon regained it and by steady gains through the line worked down to the five yard line from which point Bullock scored. Schildmiller kicked a goal. Andover, 6; Boston, 0.

Andover's second touchdown followed a punt, a fumble enabling Hobbs to fall on the ball behind the line. Schildmiller kicked the goal. Andover 11; Boston 0.

Just before time was called Bullock ran 65 yards for Andover's third touchdown. Schildmiller kicked a goal. Andover 18; Boston 0.

At the opening of the second half Andover tried a high punt again. With the result that a fumble gave Schildmiller a chance to get the ball and carry it over the line. He kicked a goal. Andover 24; Boston 0.

The ball changed hands several times after the kickoff, Boston making several gains, but Andover finally got the ball in the visitors' territory and Hobbs scored. Schildmiller kicked a goal. Andover 30; Boston 0.

The summary:

Phillips Andover. Boston Y. M. C. A.

Score, Phillips Andover 30, Boston Y. M. C. A. 0. Touchdowns made by Bullock 2, Hobbs 2, Schildmiller 5. Goals from touchdowns, Schildmiller 5. Referee, Branch, Umpire, Tracey. Linesmen, Austin and Hobe. Timekeeper, Pointer. Time, 15 min. halves.

PHILLIPS ANDOVER, 24; HARVARD 2nd, 0.

In a northeast sleet storm Phillips Andover academy defeated the Harvard second eleven on Brothers field Wednesday afternoon by a score of 24 to 0. Harvard's offense was extremely weak and until the last of the second half the Harvard line made very little stand against the Andover attack.

The Andover line was impregnable, and the backs did excellent work. Bartholomew and Longnecker both making long runs for touchdowns. Bullock did not play and Whiting, the little substitute half, showed up strong as a ground gainer. Dillon, last year's quarter, was in the game again and ran the team well despite the adverse conditions.

Sortinell, Harrington, Dearborn and Jenkins did the best work for the visitors.

Andover chose the east goal with the wind. Harvard kicked off to Hobbs on Andover's 25-yard line, from which point the Andover backs by successive gains carried the ball to Harvard's 35-yard line. Here Harvard held well and Dillon punted to Harvard's 10-yard line. Harvard failed to gain and punt-ed to her 30-yard line. On the first line up Bartholomew ran around Harvard's left end for a touchdown. Schildmiller kicked a goal.

Andover kicked off and Harvard failed to gain, Andover receiving the ball on a punt on Harvard's 25-yard line. In a few rushes Bartholomew was over the line again for another touchdown. Schildmiller kicked a goal.

By steady gains Andover worked down the field after the next kickoff and scored again without having lost the ball once. Whiting taking the ball the last five yards. Schildmiller kicked a goal.

Andover was within six inches of another touchdown when the half ended.

In the second half after an exchange of punts in which Andover made quite a gain Longnecker ran 25 yards for Andover's fourth touchdown. Schildmiller kicked a goal.

There was no more scoring but Harvard was on the defensive until the game ended.

SENATOR FLYNN NAMED AGAIN BY ACCLAMATION.

The Democratic Fifth Senatorial district convention was held in the councilmanic chamber a city hall Monday evening. Senator Joseph J. Flynn was renominated by acclamation.

Senator Flynn was escorted to the convention and thanked the delegates in a short speech.

Rep. D. H. Finn seconded the nomination of Senator Flynn.

C. A. McCarthy called the convention to order and read the call for the convention. He then suggested that a temporary chairman be selected to preside at the meeting.

On motion of Editor Joseph McCarthy, Attorney A. X. Dooley of ward two was elected and he took the chair. On motion of ex-Representative John O'Brien, John Kennedy of ward three was elected temporary secretary.

Ex-Representative O'Brien then moved that a committee on credentials be appointed by the chair and the chairman appointed the following: Michael Connell, ward six; John Reynolds, ward five; Frank O'Connor, ward four; S. A. Kneeland, Topsfield and Michael Kennedy of Methuen. The committee collected and examined the credentials, and then Michael Connell, for the committee, reported that there were 39 delegates present as follows: Lawrence 34, Methuen 2, North Andover 2, Topsfield 1. The report of the committee was accepted.

C. A. McCarthy then arose and placed in nomination Senator Flynn. Mr. McCarthy said: "I am about to nominate one who, while he has served in the Massachusetts senate has not been a silent spectator, but one who has always taken the initiative especially where legislation for the benefit of the wage earner was before the senate. He introduced and had passed the law for the weekly payment of wage earners in this state and the supreme court did him the unprecedented honor to pass upon the constitutionality of the act while the matter was still pending in the legislature."

"I now place in nomination Senator Joseph J. Flynn and I hope that his nomination will be unanimous."

Representative D. H. Finn who opposed Senator Flynn, said: "I second the nomination of Senator Flynn and I wish to say that he, whom I have known for so many years shall have my loyal support. I say this as the defeated candidate with all of my delegates present in the hall to show that there is not the least ill-feeling existing. My successful rival is a wonderful vote getter and success will crown him by placing him in the senate where he sat twice before. I will leave no stone unturned that will lead to his election."

Senator Flynn was then named by acclamation.

Michael Connell of ward six then moved that a committee of three be appointed by the chairman to bring the nominees before the convention. Chairman Dooley named the following who immediately withdrew: C. F. McCarthy, Dennis H. Finn and Michael Connell.

On motion of ex-Representative O'Brien, chairman and secretary were appointed a committee to fill all vacancies caused by death, resignation or otherwise. The motion was carried.

The chairman and secretary were instructed to select delegates to serve as a district committee. At this moment Senator Flynn entered the hall and he was greeted with cries of "Flynn."

Chairman Dooley read the following names as members of the district committee: Lawrence, C. F. Sullivan, ward one; J. F. McCarthy, ward two; S. E. Ryan, ward three; R. J. O'Connell, ward four; J. F. O'Brien, ward five; M. J. Conlin, ward six; J. F. Crowley, North Andover; Edward Moriarty, Methuen; Matthew Cunningham, North Andover; S. A. Kneeland, Topsfield; John Parker, Boxford.

Ed. William J. Sullivan was nominated for the state committee by acclamation.

The convention adjourned at 9 o'clock, having been in session about an hour.

All then went down to the Hotel Brunswick where a collation was partaken of at the expense of Senator Flynn.

CURIOSITY AND INTEREST.

(From the Chicago Journal.)

If you would have friends be interested in them.

There is a difference between interest and curiosity. Never be curious.

Interest asks nothing, but is glad of others' joys and sorry for others' misfortunes. Curiosity seeks to find more than is written upon the surface, seeks it for the purpose of distribution, for innocent slander.

One's friends like one to be interested. They detest one who is curious.

To be interested in those one meets needs but to wish them well.

To see the best of those about us will cause us to wish them well.

To our well-wishers we pour out our joys and sorrows. They are interested. They understand.

COMMERCE and INDUSTRY

Industrial.

Decline in the Gold Output.

Director of the Mint Roberts finds that in the calendar year 1903 the total output of gold in the United States was valued at \$73,591,700 and the total output of silver at \$29,322,000. The gold output shows a decline of \$6,400,000 and that of silver a decline of about \$800,000. The falling off in both metals is entirely due to labor troubles in Colorado.

George E. Roberts.

The total output of gold in the world during the same year was \$325,527,200 and of silver \$92,039,600. This is a gain of \$29,637,600 in gold and of \$6,532,400 in silver. The most important gains in gold were in Africa and Australia.

The First Underground Store.

A novel accomplishment of the new rapid transit subway at New York is the establishment of a first class store underground on a level with the subway at Twenty-third street and Fourth avenue. Already the suggestion of an arcade for underground stores to Broadway and Fifth avenue is made.

Growth of American Railways.

Professor H. C. Adams has compiled for the Interstate Commerce commission the statistics of American railways for the year 1903, just published. At the close of that year there were 207,977 miles of railway in this country, exclusive of second, third, and fourth tracks, yards and sidings. The increase during the year was 5,505 miles, the greatest for any year in the last decade. About half of this growth was in Missouri and the southwest. When all tracks are added together the total mileage is 283,821. There were 42,781 locomotives in use and 1,753,389 cars. To operate the American railways 1,312,537 persons were employed, an increase of 10 per cent over the previous year. From this it is estimated that 6,000,000 people obtain their living from railways. The total payroll of the year was \$757,321,000.

Speed in New York Subway.

The promise made by the New York subway contractors of going from city hall to Harlem in fifteen minutes was fulfilled Oct. 3, when a special train made the trip from city hall to Ninety-sixth street in ten minutes and forty-five seconds. At times a speed of sixty miles an hour was attained. The trial trip was uneventful.

Labor.

Marseilles Strike Settled.

Just as the prolonged strike of the maritime workmen in and about the port of Marseilles, France, had reached its most dangerous crisis an agreement between the dock laborers and the employing companies was signed Oct. 1. A large number of the strikers refused to accept the action of the majority, and more trouble was expected, although government troops were on hand to suppress disorder.

Fall River Strikers Firm.

The eleventh week of the Fall River cotton mill strike passed without a perceptible break in the opposing ranks, although there was more talk of a conference between manufacturers, the unions and the state board of arbitration. The weavers voted not only to continue the strike, but to demand the return of the old eight loom system.

Pennsylvania's Age Order.

Over 1,000 employees of the Pennsylvania railroad have been dismissed from the service of the company because of the general order that no employee hired at the age of thirty-five should be retained.

Plasterers' Strike National.

The International Plasterers' union in convention at Philadelphia decided

to make the fight of the plasterers against the employers' association at New York a national one. All unions throughout the country are ordered to strike on jobs controlled by the Building Trades Employers' association. The Philadelphia union, which refused to obey the order, was suspended.

Commercial.

Shipping Trust Versus New York.

The International Mercantile Marine company, known as the shipping trust, has notified the New York dock commission that the extensive new piers which the city has been erecting between Fourteenth and Twenty-third streets cannot be occupied by the trust on the terms formally proposed because the rentals are too high. The trust officials call attention to the fact that much of the commerce formerly coming to New York has gone to such ports as Montreal, Galveston, New Orleans, Philadelphia and elsewhere because free use of piers has been given to the transportation lines, while even across the Hudson, at Hoboken, the same facilities can be had for one-third or one-half of what is generally charged in New York. The trust offers to open negotiations on a lower rental basis. The dock commissioners say that the trust is simply abrogating its agreement. The proposed rental for the new piers is \$110,000 a year each.

Diamonds to Cost More.

Importers and cutters of diamonds have received word from the De Beers selling syndicate of London, which controls over 90 per cent of the world's output of diamonds, that the price for all grades of rough stones has advanced 5 per cent. This advance is in line with the syndicate's policy for the past three years, during which time an advance of from 30 to 40 per cent on different grades has been made.

Rock Island President Resigns.

L. F. Loree resigned Oct. 4 as president and director of the Rock Island Company of New Jersey and was succeeded by Robert Mather. Mr. Mather also took Mr. Loree's place as chairman of the executive committee of the Chicago, Rock Island and Pacific railway. This change followed the annual meeting of the Chicago and Alton, which road had come under the control of the Rock Island. Both the Harbison and Moore interests had agreed to conduct the Alton on a joint basis for one year. The annual report showed an increase in both gross and net earnings, with a neat balance after payment of all dividends.

Railroad Labor Expenses.

The annual report of the Illinois Central exhibits a payroll larger by \$2,400,000 than in 1902, of which more than \$1,200,000 is said to have been for increased wages of labor engaged in operating the road. Although gross earnings increased, the percentage of gain was the smallest reported in five years.

The Tobacco Merger Approved.

As was expected, the stockholders of the American and Continental Tobacco companies voted with overwhelming majorities in favor of the merger proposition outlined in the circular of Sept. 9. The Consolidated Tobacco company, however, deferred action until Oct. 17, six days after the date set for the hearing in the injunction proceedings begun by certain minority interests to prevent the merger.

RELIGIOUS

A Bishop's Plea For Labor.

At a public mass meeting of the Brotherhood of St. Andrew in Philadelphia Bishop Gallor of Tennessee, speaking of the labor conflict in Colorado, said that the workmen of the country were turning their backs on the church because the church does not help them to find justice and fair play.

Presbyterian Minister Quits.

The Rev. Samuel T. Carter, a Presbyterian minister of New York, has issued a circular letter to his conferees

telling his conviction that the whole theology of Calvin is untrue and that "the dogma of endless torment for the sins of this life, as long as I keep my reason and trust in the infinite love of God, is the most impossible of all things to believe." He has come to believe that "the doctrine of the fall of man in Adam, upon which the whole scholastic theology depends, is a blunder, fraught with the most disastrous consequences," and that this race is not a fallen race, but that "we are children of God who have moved forward from a very low plane of life to a more exalted one and are still moving with a progress that may not haste and never rests." Further, he says the doctrine of the trinity has never brought to him "one ray of light," although he fully accepts Jesus Christ as the well beloved Son of God. So believing, he asks for a letter to the Congregational association unless the presbytery shall decide that any one so believing, but accepting the gospel, may remain in its ministry.

EDUCATIONAL

More Tuition at Columbia.

President Butler of Columbia university in his annual report seeks to justify the increase of tuition from \$200 to \$250 on the ground that this will not exclude any deserving class of students owing to the many aids given. He points out that the budget for 1904-05 amounts to about \$1,250,000, while the students' tuitions amount to about one-third of the total outlay. The gifts to Columbia during the past year amounted to \$1,783,138. Degrees have been conferred by Columbia on William Ramsay of London, Professor W. H. Nichols of New York and Archbishop Davidson.

Notes.

President Schurman in his opening address to the students of Cornell university, at Ithaca, N. Y., reiterated his determination to stamp out hazing, which he defined as "any interference with the personal liberty of any student."

In the public schools of Wabash, Ind., boys are to be instructed in plain sewing by order of the school board. Only the boys in the high school are exempt. Great objection was found in enforcing the rule in lower grades.

The Woman's School alliance at Milwaukee has raised a fund to provide poor children in various schools of that city with a free breakfast. It has been found that children of poor people come to school without breakfast because the parents must hurry off to work.

The Homestead school board at Homestead, Pa., has rescinded its action of two years ago barring Catholics from the Charles Schwab Manual Training school.

The public school superintendents of eleven southern states have joined in a notable message to the southern people pointing out the hopeless inadequacy of the equipment for effecting universal education throughout the south. While the country at large is spending over \$20 for every pupil enrolled the south is spending only \$6.95. The plan of consolidating the little country schools into larger graded schools is proposed. They are forced to the conclusion that local taxation by counties or districts is the only means of supplying the necessary funds.

Miscellaneous

Accidents.

Three men were killed and a number injured in the wreck of a stock train near Bismarck, N. D., Oct. 3.

Twenty-five families were rendered homeless by a fire which destroyed the town of Berlin, Md., Oct. 1; loss, \$100,000.

In an effort to prevent a bridge from being swept away at Oklahoma City, Okla., Oct. 4, seven men were drowned. The city of Trinidad, Colo., was devastated by a flood Sept. 30. Many bridges were swept away and railroad traffic obstructed; loss, \$1,000,000.

Twelve persons were drowned in a flood at Watrous, N. M., Oct. 5.

Thirty persons were drowned in the Pecos and Canadian rivers as the result of floods in Oklahoma and Indian Territory Oct. 5.

Three persons were killed and others injured Oct. 6 when a big automobile shot off an embankment on to the tracks of the New York Central railroad at New York.

Deaths.

Henry C. Payne, postmaster general of the United States, died at his apartments in the Arlington hotel, Washington, Oct. 3. A state funeral service was accorded.

Sir William Vernon-Harcourt, for many years the leader of the British Liberal party, died at his home in Gloucester Oct. 1, aged seventy-seven.

Frederic Auguste Bartholdi, the sculptor of the statue of Liberty in New York harbor, died at Paris Oct. 4.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss Ada Dorr, Sidney, Iowa.

SAVED CONTRACT FOR A LOCAL INDUSTRY.

Congressman Butler Ames of Lowell, Mass., who is up for reelection in the fifth district, enjoys the unique distinction of having overturned a Government contract even after the award had been made; writes one of the Washington special correspondents.

Colonel Ames held a theory that a contract should be awarded to the lowest bidder, and as that bidder happened to be a Lawrence firm, and Lawrence is in his congressional district, he harried senators and representatives alike, until he succeeded in having the award reversed.

The contract in question involved the purchase of 600,000 pounds of double coated for the Government printing office. The Champion International company of Lawrence submitted the lowest bid, but the committee on printing awarded the contract to an Ohio firm, at a meeting at which all of the members were not present.

The Lawrence firm could find no justifiable reason for the reward and took the matter to their congressman. Colonel Ames had become pretty well known both in the house and the senate—for his father has served in the United States senate and his grandfather, of illustrious memory, had been a member of Congress—but when he undertook to tell a committee what it should not do, he found himself up against what one of the senators told him was "as the laws of the Medes and Persians," the rules of the committee. For it was against committee procedure to "stop water once it had gone over the dam."

Nevertheless the young congressman went so far that he threatened to carry the matter before the House and actually got permission from Speaker Cannon to call it up at a certain day.

Having secured this point, he went to the White House, where a Massachusetts senator was dining with the President, took him away on a visit to an influential senator who had not attended the meeting of the printing committee, and on the following morning got a second meeting of the committee at which the award was rescinded, and the contract given to the firm in Lawrence, Mass.

It is pretty well understood that when Congressman Ames "butts" into a committee again in the interest of his district that he will be given a hearing upon the first request. For he appears to have some of General Butler's stubbornness of purpose in his makeup.

Inquiry among local persons who should be familiar with the matter, elicited the information that the facts, as stated, are substantially true. As far as could be learned, the contract called for several hundred tons of double coated paper for the government printing office, ranging from the minimum amount of 600,000 pounds to about 750,000 pounds, the cost of which would be from \$40,000 to \$60,000. The contract is not a large one for the Champion International company, but it is of moment to a local industry and an advantage to local labor and to local business. The statement can be made, that the contract is of great benefit to the Champion Company as a local industry.

The contract is a yearly one, and was awarded March 1, 1904, from Washington. It is intimated, that never before was the committee on printing of the National Congress known to reverse its decision on a contract. The reading of the committee's proposals leaves a loophole for political influence, the stipulation being that awards shall be granted to the "lowest and best bidders." In the case of the printing contract, the Ohio firm, who partake somewhat of the Buckeye propensity for politics, secured the award as the "best" bidders, although not the lowest. When Congressman Ames set to work he was confronted by the fact that the Ohio men, had the contract and by the further fact that they were good politicians, who knew the ropes, and could not be headed by ordinary methods of procedures.

Congressman Ames enlisted the influence of Speaker Cannon, who agreed to recognize the offer of a resolution for an investigation, not Speaker Lodge to take care of the matter in the upper house, and drafted John Sharp Williams of Mississippi, as the minority leader, to take care of the opposition. This formidable array of influence had the desired effect. The committee on printing reversed its action, and awarded the contract to the lowest bidder, the Champion International company.

A local friend of the Congressman, who is familiar with the circumstances, says: "Congressman Ames acted with great cleverness and good diplomacy in this matter. He did not make a noise, but seemed to know just what to do, what people to see for the proper influence and to act quickly and with effect. He is a fighter when aroused. The blood of his grandfather, the general, asserts itself when there is need for it. The securing of this contract was as clever a piece of work as any Massachusetts congressman has accomplished in many years."

MANY MOTHERS OF A LIKE OPINION.

Mrs. Pilmer, of Cordova, Iowa, says: "One of my children was subject to croup of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children. For sale by all druggists, Lawrence, W. A. Allen, Andover, C. H. Protecting the Trees.

The citizens of Arlington Heights are up and doing in the work of protecting their trees against the gypsy and brown tail moths. They have formed an organization, equipped stations all over the village with ladders and tools, and aroused such a universal interest in their work that it is assured that at least one town in Massachusetts will win against the two pests.

What one town can do others can, and the Arlington people, not content with their local efforts, are preaching their doctrine in some very effective literature. They are calling upon towns to act officially, and urging everybody to support further efforts for proper legislation. Their directions for fighting the pests are very simple, but it is assured that they are very efficacious. As many of our citizens are deeply interested we publish them herewith:

"The white webs you now see on the trees are the work of the brown-tail moth, and in this web will be found the winter nest. No more harm will be done by them this fall. When the leaves fall will be time enough to cut off these nests.

Now is the time to begin work on the gypsy moth nests. The clusters of gypsy moth eggs are now plainly seen, but after a time will become weather stained and of the same color as the bark on the trees. It is therefore essential that work upon them be commenced immediately. They are small ovals of an irregular outline, and now of a buff or sponge color they look like buff velvet cushions.

They are found on trees and are apt to be in decayed cavities where limbs have been taken off, or on shrubs, fences, stone walls, stones, old lumber, wood, or anything that affords a surface for them. Be sure and look on the under side of everything raised from the ground in exposed positions. If you have a piazza with slatted front, be sure and look under it.

After destroying all the nests you can find on the trees, scrape the loose bark; you will find many under it.

Do not take off the nests, as any part you drop is likely to hatch.

Paint all gypsy moth nests thoroughly with creosote. This will surely destroy them."

This is one of the most encouraging movements yet made to intelligently combat this serious menace to our beautiful New England trees. The Arlington people are anxious for government aid and proper legislation, but they go after it by the best route possible, namely, through laboring themselves. It is a splendid example for all of our cities and towns to follow.

Editorial Cinders.

There's a lot of good, hard sense in "Ian McDougall's" comments upon "Boys' Clubs", as there is in many things he writes. But has our good Scotch critic taken full account of the situation as it is? Not all homes have firesides to attract the boys, and there are many things craved by the youth of today, other than books. Happy the home, and fortunate the boy, where there is enough of all kinds of home pleasure to send the boy to bed at the right hour, tired with the fireside pleasures alone. But there are other circumstances and conditions that must unfortunately be met, and the right kind of a "boys' club" will go a long way toward meeting them.

If you aren't singing in the chorus, or serving as a pickaninny, or training for the cake walk, there is only one part left for you to take in the coming minstrel show, and that is to be one of the audience. You can't have quite as good a time there as you might as one of the other kind of workers, but as an active helper toward the good results to come, and as a substantial contributor to the sum total of it all, there is still a good chance at the ticket office. But it is going to be worth while to take that chance in such a good cause.

What's this, a lot of A. V. I. S. members who haven't paid their half dollar for 1904? So the treasurer says, and if you have ever been a treasurer of anything and had a lot of bills to pay with no "bills" to pay them with, you know how she feels. The trouble is it is so easy to forget such things, but you certainly are remembering it NOW, and Uncle Sam will carry the check.

The Selectmen have got the powers started toward an adjustment of the waiting room difficulty. The hearing scheduled for October 26, by the railroad commissioners, should be attended by all citizens who can possibly be present, to urge the need of relieving the very trying situation now existing in Elm Square.

After all it only needed a little of the flaming torch and bright uniform to awake many of us to an appreciation of the fact that a presidential election is here again. The marching torch lighters are a useful and interesting feature of the modern campaign for this, if there were no other reason for their existence.

MOVE FOR WAITING ROOM

Railroad Commissioners to Give Hearing October 26, in Boston.

In reply to the recent action of the Selectmen, in favor of a waiting room in Elm Square, the railroad commissioners have addressed the following to the selectmen.

Selectmen of the Town of Andover,

Dear Sirs:—Upon the petition of the Selectmen of the town of Andover, relative to the construction and maintenance of a waiting room in Elm square in the town, the Board will give a hearing at its office, 29 Beacon street, Boston, on Wednesday, October 26, at eleven o'clock in the forenoon.

Per order of the Board,

CHARLES E. MANN, Clerk.

The Coming Minstrel Show.

The Minstrel show to be given in the Town hall, Oct. 24 and 25, is making splendid progress. The singing in the first part will be a surprise to the public, while the Pickaninny act by fifteen little tots will certainly be one of the funniest acts ever seen on the local stage. The funny part of it is that the children don't seem to try to be so. A bright feature is the solo with dancing chorus by nine of Andover's prettiest girls dressed in pink with picture hats.

The cake walk will probably be the most exciting affair of the evening, four couples walking their prettiest to win the applause of the audience, for the couple getting the most applause will be awarded the cake by the referees. The following gentlemen will act as referees: B. Frank Smith, Samuel H. Boutwell and Samuel H. Bailey. There will certainly be lively times at the Minstrel show and no one able to walk or ride should miss going at least one evening.

Election Officers.

At a meeting of the Board of Selectmen held on Monday afternoon, the following persons were chosen to serve as election officers at the coming national election: Precinct 1, George A. Higgins, warden; Frank H. Hardy, deputy warden; William J. Burns, clerk; Daniel A. Collins, deputy clerk; Louis A. Dane, inspector; William J. Doherty, inspector; Timothy Mahoney, deputy inspector; J. Frank Morse, deputy inspector; Precinct 2, Howell F. Wilson, warden; Clester E. Matthews, deputy warden; Owen F. Caffrey, clerk; Michael J. Flaherty, deputy clerk; Willis B. Hodgkins, inspector; Nathan E. Mears, inspector; John S. Dearborn, deputy inspector; Martin McKee, deputy inspector.

Permission was also granted to the New England Telephone and Telegraph company to place poles on South Main street from the top of the hill to Gardner avenue, from Gardner avenue to Harlan W. Whipple's house and from there to Abbott's corner. Also on North Main street between the junction of Union street to Heroux's Hiding Academy.

Cornell Art Gallery.

Owing to the number of young children who come to the art gallery of the Memorial Hall library on Saturday evenings—the time most convenient for adults to visit the same—the trustees have voted that children under fourteen years of age be admitted only on Friday and Saturday afternoons, and not on Saturday evenings. This limit of age agrees with that regulating the issuing of library cards, as also the employment of youth in the mills. The latter class, it is thought, being unable to attend in the day time, ought to have the precedence in the evening. Parents are requested to co-operate in carrying out the above arrangement. It will be remembered that the art gallery is open for visitors on Friday and Saturday afternoon from 3 to 5.30 o'clock, and on Saturday evening from 7 to 9 o'clock.

A Surprise.

Thursday night a pleasant party was held at the home of Mrs. James Anderson of High street, when she was presented with several baskets of fruit, such as quince, grapes, pears, etc., also a basket of Scotch short cake and an original poem, which was sung by one of the neighbors.

A fine musical entertainment was given and light refreshments served. The neighbors and friends all agreed they had spent a pleasant evening with Mr. and Mrs. Anderson.

Registrar's Notice.

The Registrars of Voters of the town of Andover will be in session at the Town house on Monday, Oct. 17th and Thursday, Oct. 20, from 7.30 to 9.30 p. m., and on Saturday, Oct. 29th from 12 m. to 10 p. m. Also at the "Old School House," Ballardvale, on Monday, Oct. 24th, from 7.30 to 9.30 p. m.

A. V. I. S.

Attention is called to the annual membership fees of the A. V. I. S. for the year ending Feb. 1905. All members who do not hold receipts for the fees for the current year are earnestly requested to send in the amount at once. The summer's work is nearly finished and the early remittance of the annual fees will enable the treasurer to pay for this work without delay.

Persons who purchase goods of extra quality, always go to a house of recognized reputation, honesty, and ability for them.

That is the reason so many persons have their photographs made at the SHERMAN STUDIO.

THE SILK STORE

IN THE MIDST OF IT

We are now in the midst of the Autumn business. To the trade activity of yesterday there are added activities today. Every section bright with its new merchandise is crowding to the front. Not one hundredth part of the good things and a place in print, just a few of the timely lots are exploited. We want you to know and feel that money spent in this store is well spent. If it were otherwise then are we false to our printed promises, false to our best conception of honest shop-keeping.

A Busy Week in the Underwear Section

We've planned for some important selling of Knitted Underwear. We'll start the selling with such values as these.

WOMEN'S UNDERWEAR

We have just received from the mill one case of Women's Jersey Wool Vests and Pants, handsomely trimmed with silk crochet; these would sell in a regular way at 89c garment, but as we bought them at a fraction of original cost we will sell them at 59c each

Women's Heavy Fleece Lined Jersey Vests and Pants, superior quality yarn 50c 25c each

Women's Medium Weight Jersey Vests and Pants, correct sizes, excellent quality, 25c each

FLANNELETTE WEAR FOR WOMEN

Night Gowns and Short Skirts, an important and economical purchase of the above makes these bargains possible.

Flannelette Night Robes of good material, made with double yoke, back and front trimmed with fancy braid. 69c, 79c and 89c each

Night Robes of fancy stripe flannelette, full length and width, with yokes of plain blue and pink \$1.00 each

Flannelette Robes in extra large sizes, yoke and cuffs finished with fancy stitching \$1.39

Short Skirts of good quality flannelette in pink and blue stripe, flounce finished with button hole stitching 50c

Guild Annual Meeting

The annual meeting of the Andover Guild was held in the house on Brook street on Tuesday evening. Owing to the fact that the reports of all committees and of the year's work is to be printed for the benefit of the Guild members, the reading of all reports except that of the treasurer was omitted. This report showed the organization to be in good financial condition.

The work of the Guild has been going on all the year with great success, especially during the winter months, when charity work aided in tiding many a needy family over hard places. The various clubs and entertainments have proved most enjoyable to the younger people, many pleasant evenings having been spent in the house.

The Directors for the ensuing year were elected as follows: Mrs. William G. Goldsmith, Mrs. George Merrill, Mrs. Howell F. Wilson, Misses Evelyn P. Reed, Mary B. Mills, Margaret Keane, Rev. A. T. Belknap, Rev. F. R. Shipman, Rev. Frederic Palmer, A. L. Ripley, Burton S. Flagg, Corwin F. Palmer, Bernard M. Allen, Charles H. Forbes; Bernard M. Allen was elected clerk and Burton S. Flagg treasurer. At a meeting of the Directors held immediately after the general meeting, J. Newton Cole was chosen president and all the officers of last year were re-elected.

Officers Elected.

The annual meeting of the Ladies' Benevolent society of the Free church was held at the home of Mrs. J. Newton Cole on Chestnut street, yesterday afternoon, when officers for the ensuing year were elected, and other important business was transacted. The following officers were elected: President, Mrs. J. Newton Cole; vice-president, Mrs. Henry Russell; secretary, Mrs. William Faulkner; treasurer, Miss Agnes Smith; collector, Mrs. Isabella May; directors, Mrs. Mary Hussey, Mrs. Andrew Kydd, Mrs. Walter Donald, Mrs. Walter B. Allen, Mrs. David Lindsay, Mrs. John Richardson, Miss Ada Buchan; superintendent of foreign department, Mrs. F. A. Wilson; assistant, Miss Lucia Clark.

If troubled with a weak digestion try Chamberlain's Stomach and Liver Tablets. They will do you good. For sale by all druggists, Lawrence, W. A. Allen, Andover, C. H. Shattuck, Ballardvale.

Clubs.

To the Editor of the Townsman:

Dear Sir: In your editorial last week you spoke of clubs for the young men of the town. I am not one of those cranks who imagine they can put an old head on young shoulders. It is just as natural for a boy to play ball and run and jump as it is for a kitten to be "pleased with a rattle, tickled with a straw." As to clubs the best club for any man is his own freeland and the best companions he will ever have are his mother and sisters. As to your lament that our Northern neighbor has rich men who give money to install a boy's club and we do not have them, there is far too much looked for from rich men and it is a question whether it is ever right to help any one who can help themselves. Big libraries are all right but the book the young man buys and reads at home and who has a little bookcase, even if made from an old box to put his books in, is independent of Mr. Carnegie or any one else. If he honestly works for a dollar and buys a book and then another book he is above donations from rich men. Every young lad should have a little desk and a book case of his very own.

As I sit at the window on Sunday afternoon and see scores of young lads lounging at the corners of the streets, I am grieved to see the sad listless look they have. Is there nothing for them to do but hang round and smoke cigarettes? Why don't they have a hobby of some kind? If our clergymen and professors would invent a club for these young men for Sunday afternoons it might be a good kind of a club. It would fill every column of your paper to mention the number of things that might interest them, theology, history, astronomy, poetry, drawing, poetry, painting, music, Darwinism or any lam to get out of the stupor of utter indifference to anything elevating.

I know men today who began to work at ten years of age, working twelve hours every day, who, when young men went to an evening school, paying the teacher out of their own little earnings. These men are today occupying positions in Mexico, Japan, China and India getting yearly salaries of from five to ten thousand dollars. Anything you get for nothing in education is a delusion and a snare.

The crying evil of today is too many clubs. The best club you could invent is a big club a little larger than a base ball bat to drive the clubites home before ten o'clock. No doubt man is a gregarious animal as well as a cooking animal and as "Iron sharpeneth iron so club a man the countenance of his friend." Yet it is true that club life is ruining the homes of our country.

BAPTIST CONVENTION

Merrimack Valley Association Holds Its Annual
Meeting With Local Church.

The Merrimack River Baptist association, comprising the Baptist churches of Lowell, Lawrence and Haverhill and the neighboring towns, met in the Baptist church in Andover today. The services began at 9.30 o'clock Wednesday, and were held morning, afternoon and evening. The principal speakers of the morning were Prof. Galusha Anderson, S. T. D., L. D., of Newton Centre, and Rev. George F. Green of the First Baptist church in this city. The addresses were able and interesting. The devotional exercises in the morning were in charge of Rev. Smith T. Ford, D. D. Following the business of the association was transacted President Ellis being in the chair. The report of the executive committee was given by F. W. Dickson, and the report of the treasurer, S. F. Snel. The nomination committee submitted the following list of officers for whom the secretary cast one ballot: President, Rev. George F. Green of Lawrence; vice president, Rev. A. T. Bell of Andover; secretary, Rev. F. W. Dickson of Methuen; treasurer, S. F. Snel, Lawrence; executive committee, W. S. Floyd of Lowell and Amos W. Dunning of Haverhill. At noon a dinner was served at the Town hall for the visitors, and many enjoyed a tour of Andover under the direction of Rev. Mr. Belknap. The day's program follows:

Wedding.

WOOLDRIDGE-ABBOTT.

A very pretty but simple wedding took place Monday afternoon at Maple-ridge Farm, Andover, when Susan Edgar, daughter of the late Nathan F. Abbott, was united in marriage to Dr. Frederick W. Wooldridge, son of Dr. William Potter Wooldridge of Pittsburg, Pa. The ceremony was performed at 3 o'clock by Rev. Frank R. Shipman of the South church. The Episcopal ring service was used. Richard M. Abbott of Vineyard, N. J., uncle of the bride, gave her away. She wore a gown of mousseline de soie and china silk trimmed with embroidered chiffon and duchess lace, and carried a large bouquet of American Beauty roses, her only ornament being a brooch of pearls and diamonds, the gift of the groom.

After a lunch Dr. and Mrs. Wooldridge left on the 5.50 train for Boston, amid showers of rice. They will be at home after November 1st at Fifth avenue and Beechwood Boulevard, Pittsburg, Pa.

Both bride and groom are graduates of the Boston University school of medicine, class of 1902.

WRIGHT-BEDFORD.

Professor George Frederick Wright of Oberlin, Ohio, and Miss Florence E. Bedford of Springfield, Ohio, were married Thursday, September 22, in Indianapolis, at the home of the bride's cousins, Mr. and Mrs. George T. Bedford. The ceremony took place at noon, and only relatives and a few intimate friends were present. After the wedding breakfast Professor and Mrs. Wright left for St. Louis, where they attended the Science Congress at the Exposition. Later they went down the Mississippi to make a study of the loess deposits at Helena, Ark., and other points. In November, Professor Wright delivers the Stone lectures at Princeton Theological Seminary. After January 7, they will be at home at 145 Elm street, Oberlin, O.

Obituary.

The death of John Rogers, for many years an employee of the Smith & Dove Co., occurred at midnight last Friday at Haverhill, after an illness of about two weeks. Mr. Rogers had been in failing health for a number of months but was not compelled to give up work until a short time ago. His physician ordered him removed to the Lawrence General hospital upon retiring and later he was taken to Haverhill, suffering from softening of the brain. He was in the institution there only a few days when he expired. His age was 50 years. He is survived by two sons.

The funeral was held on Monday afternoon at 2 o'clock from the South church vestry and was conducted by Rev. F. R. Shipman. Interment was in the South cemetery. The pall bearers were employees of the Smith & Dove Mfg. company where the deceased had worked for many years. They were Thomas Leslie, Marshall Walker, John Irving, Alexander Lamont, James Stewart, James Magee.

total amount raised for all purposes exceeded \$71,000.00. This year we report a decrease from the above amount of about \$1,500.00.

Eleven churches have raised more money for all purposes than they did last year. I have increased their amount for benevolence, while one church has dropped entirely out of the benevolent column. Your committee wish to be fair in this report, and wish to remind the body that the exceptional winter of 1904 and the small attendance at the services account in a measure for the falling off in the financial statistics and it is the belief that in some cases where extra meetings were held for revival purposes, they were greatly interfered with, owing to the severe and stormy weather, which prevailed after Jan. 1. These unforeseen obstacles account for the decreased number of baptisms. We believe that an opportune time for revival work would be just after the harvests are gathered, and during the Easter time when joy fills the heart in anticipation of the new life.

This year our association reports 4 men studying for the ministry, as against one a year ago. We pray for our Lord's Kingdom to come, which would appear to be a long way off, if the number of the new laborers who go forth to work in the vineyard is any criterion. We want more praying. Hannahs to present their Samuels at the altar for God's service. The entering class at the Newton Theological Institution this year numbers 20. We hope and pray that a year hence the number may be increased to fifty. The revival work, especially, seemed to be confined to Lowell, Lawrence and Methuen, this year, which is evidenced by the fact that 183 baptisms out of the total number of 292 took place in the churches of the above named cities and towns.

We are glad that there has been a disposition on the part of city pastors to help their brethren in the country churches, and we believe that such an exchange of pastors in special meetings would be beneficial to the country field, as it has proven to be in the city large town churches.

With deep gratitude to God for His mercies in the past, we look prayerfully to the future. By faith we expect to make fresh conquests for Christ in the year before us, so that the committee a year hence shall be enabled to make a red letter report at the next annual meeting of the Merrimack River Association.

Respectfully submitted,

SILAS L. MORSE.

E. A. WHITTIER.

Committee on State of Religion

MR. MOORE'S ADDRESS.

Stephen Moore spoke in part as follows:

I have been asked to speak to you for a few minutes on "Piety and Church Finances." I suppose I am to point out the relation, if any, between them. And first, let us have clear definitions. Piety, I conceive to be the expression in life of a spiritual experience, aptly defined as the "Life of God in the soul of man."

This inner life is not material, but it is none-the-less real, and is the source of moral activity. It is not mentally, but it is more. It is an inspiration that though pure in itself, shines out through our outward lives like "the Sun in dim eclipse," and is revealed in its full glory only in Jesus of Nazareth.

The other term of our problem is Church Finances; that is, monetary transactions. Money represents material things, and is the opposite pole to spirituality. What does money do? Many good things. It brings the realization of materialistic ideas.

Pearly dreams of a search for the North Pole; but it is only a dream until a ship is purchased and provisioned by means of money. Our Great West was an uncultivated barren waste until money, and millions of it, pushed out the iron tracks that made the desert to blossom like the rose, and become a land of homes.

Our Patent Office is deluged with inventions, the product of busy brains, that wait development by money. Science has compelled Nature to yield up her secrets only as men and institutions of learning have been raised up by money.

"The Heavens declare the glory of God and the Earth sheweth forth His Handiwork" more fully than the ancients knew because the telescope and microscope and men of leisure to use them have been produced by money.

The philanthropist ministers to the bodies, and the missionary to the souls of men, not without money. Yes, money does all this, and more. It can buy bread but not brains; an earthly tabernacle, but not a house not made with hands eternal in the heavens. It can purchase passing pleasure but not eternal life. It is a good servant but a terrible master. It can bolt the door of the soul against the sweet influences of Divine Love and proffered grace. It can strangle every worthy ambition of the young man who possesses it, and can purchase only as men and institutions of learning have been raised up by money.

And now what is the relation of these two apparently opposing elements, Piety and Money in the Church? The relation must be a close one, for Piety is the one great possession, the distinguishing feature, of the Church, and Finances or monetary transactions occupy a large place in the maintenance and very existence of the Church from the time when the disciples had all things in common until now. It has been recognized in being selected as one of the trials of subjects for discussion here today. Paul recognized it in that, after his wonderful account of the resurrection of the dead in his letter to the Corinthian Church, he goes right on to say—

"Now concerning the collection for the Saints" and James, "If a brother or sister be naked and in lack of daily food, and one of you say unto them 'Go in peace, be ye warmed and filled, and yet ye give them not the things needful to the body: what doth it profit?' and John, 'If a man loves not his brother whom he has seen, how shall he love God whom he has not seen?' Jesus Christ 'Ye cannot serve God and Mammon.'"

Piety, if it be worthy the name, controls the entire man and his possessions. One of the best measures of the depth of Piety in the soul is the

A Tribute.

At the regular meeting of Gen. Wm. F. Bartlett Relief Corps, No. 127, last Tuesday evening, a short memorial service was held in memory of Mrs. Mabel Pike. Mrs. Pike was a faithful, earnest worker, having served as guard and later as treasurer. At the time of her death she held the office of junior vice-president.

Some of her favorite hymns were sung and Mrs. Mary Ellen Anderson read a poem which she wrote for the occasion.

In Memoriam.

As we have draped our chart in mourning
As the outward sign of woe;
But deep in our hearts we feel the loss
That the outside world may not know.
The silver cord has broken
And a loved one has passed away,
Passed from the friends she loved so well
To the realms of endless day.

"Gone home; gone home," our pastor said
With a pathos soft and low,
She has passed through the gates of the Heavenly home,
And left us alone in our woe.
She was so young to leave behind
All that her heart held dear,
But "those the Gods love early die,"
And her work was finished here.

Finished I say, for length of life
Not years but deeds do tell.
Our life is likened to a play
Let us strive to act it well.
She was faithful, and so helpful,
In our noble work of love;
And methinks our Master needed
Such as she for work above.

May the memory of her service
Prove inspiring to this band,
To this Corps of faithful workers
As we labor hand in hand.

We have our work before us yet
Let us labor while we may
The night is dark and none can work
So work while it is day.

Earth-worn and weary we often feel
And our burdens would cast on Thee,
Beyond the smiling and the weeping
Where the many mansions be.

The less of earth the more of heaven
This thought is ever nigh
And God himself will wipe the tears
From every weeping eye.

High Honors for Pigeon Owners.

At the Taunton Fair held recently the pigeons from the coops of Guthrie and Ross, of this place, won high honors, every bird entered winning a prize. Messrs. Guthrie and Ross also won a special prize for the best turbit in the show.

Their entries were: Black wing turbit, cock, 1st; white turbit, cock, 1st; black turbit, cock, 1st; black mottled turbit, cock, 1st; yellow beard turbit, hen, 1st; red bald headed turbit, cock, 1st; blue bald headed turbit, cock, 1st; red mottled turbit, cock, 2nd; yellow rose wing turbit, 2nd. The birds from Guthrie and Ross coops have been very successful as prize winners.

Mother's Club Meeting

The Andover Mother's club met Friday afternoon, October 7th, at three o'clock in the kindergarten rooms of the John Dove school. The Constitution and Rules of the club have been printed and were distributed among the members.

Rev. W. S. Stearns gave a very interesting talk, his subject being, "The Training of Children." The four topics on which he spoke were, "Self-control," "Truthfulness," "Justice," and "Self Respect." He closed by saying that children were great reformers and parents could not expect their children to follow their teachings unless they put them into practice themselves. A very pleasant social followed, tea being served by Mrs. Watts, Mrs. March, Mrs. Valentine and Mrs. Swanton.

P. A. Briefs.

The singles in the tennis tournament held last week resulted in a victory for P. K. Smith, who will represent the school in the singles with Exeter.

The football training table started Wednesday night at the dining hall with the following men: "The four topics on which he spoke were, 'Self-control,' 'Truthfulness,' 'Justice,' and 'Self Respect.' He closed by saying that children were great reformers and parents could not expect their children to follow their teachings unless they put them into practice themselves. A very pleasant social followed, tea being served by Mrs. Watts, Mrs. March, Mrs. Valentine and Mrs. Swanton.

In the scholarship honors of the class of 1907 at Yale are the following men who graduated from Andover in the class of 1903: S. T. Crawford, R. D. Davis, C. P. Otis of this town, H. B. Simson.

Letter to John S. Stark.

Andover, Mass.

Dear Sir: A gallon saved is \$4 or \$5 earned. Two gallons saved is \$8 or \$10 earned. Three gallons saved is \$12 or \$15 earned.

Four gallons saved is \$16 or \$20 earned. Five gallons saved is \$20 or \$25 earned.

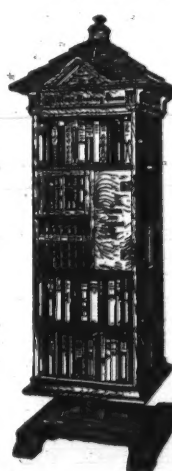

It costs \$3 or \$4 a gallon to paint, besides the paint; as much to brush-on a gallon of worthless paint as Devco. Mr. Ezra Rathmell, Williamsport, Pa., always used 11 gallons mixed paint for his house; Devco took 6.

Yours truly,
F. W. Devco & Co.,
New York

WHAT ALL THE WORLD IS DOING

Trend of Civilization in All Lines From Week to Week

POLITICS and GOVERNMENT

General.

Decision For La Follette.

By three to one the Wisconsin supreme court, Oct. 5, decided that the state ticket nominated by the friends of Governor La Follette was entitled to be called Republican on the official ballots at the coming election. Following this decision, the stalwarts' candidate, A. S. Cook, resigned, but the stalwarts decided to continue the campaign against La Follette with a third ticket. The court's decision overruled the Republican national convention at Chicago, which recognized the Spooner delegates.

Congress' Right to Investigate.

Secretary of the Treasury Shaw in a speech at Indianapolis, Oct. 5, opposed the Democratic demand for a congressional investigation of executive departments. The occasion was the biennial convention of the Republican League of the United States. Mr. Shaw doubted if congress had the authority to investigate the executive branch of the government and asked "If congress can investigate the executive, cannot the executive investigate congress?" J. Hampton Moore was re-elected president of the league.

Senator Knox's Keynote.

The Oct. 1 address of United States Senator Knox of Pennsylvania at Philadelphia has been one of the leading topics of gossip and discussion. He maintained that the president's action in recognizing Panama was strictly within his province and that the pension order was simply put into effect by the action of congress. He pointed out that the main source of opposition to President Roosevelt came from a few large financial interests which had been unable to bend him to their will.

Watson at Dollar Dinner.

Popular Candidate Watson attended the "dollar dinner" at New York, Oct. 5, which was conducted by a number of labor leaders. In the course of his speech Mr. Watson declared that Parker should get out of the race in order to give him (Watson) a real fight with their common enemy, the Republican candidate. He said the old parties were, so far as principles are concerned—

Two minds with but a single thought;
Two hearts that beat as one.

In his Jersey City speech he said the Democratic party had degenerated into a joke and had shed its principles as a peddler would his pack.

Davis' Acceptance Letter.

Ex-Senator Henry G. Davis made public his letter accepting the Democratic nomination for vice president, laying especial stress on the extravagance of the Roosevelt administration and the danger to the republic in its imperialistic policies. He favors the reduction of tariff schedules and deprecates raising the race issue.

Judge Parker Not to Stump.

Chairman Taggart of the Democratic national committee has announced that after taking counsel with various men of experience in the party Judge Parker had adhered to his determination not to go upon the stump and that such speeches as he deemed desirable to make would be delivered at Rosemount.

Bryan Gives Up Nebraska.

In a speech at Norfolk, Neb., W. J. Bryan devoted his time to state politics and a plea for a fusion legislature, saying that a Roosevelt victory in Nebraska was certain this fall owing to the unfortunate split in the fusion electoral ticket. He said Parker was too much like Roosevelt, and that he (Bryan) had neither recanted nor receded from his position.

Mayor McClellan Hunting Grafters.

On charges that they had used their offices for political purposes by certifying to false payrolls the entire board of New York city's civil service commissioners was removed from office by Mayor McClellan, and the resignation of Park Commissioner Schmitt was called for on the same ground. Former Comptroller Coler was selected to head a new board. The charges were brought forward by the Civil Service Reform association. Commissioner Hal Bell at once began a \$100,000 suit for slander against the mayor.

Notes.

The Georgia state elections resulted in the re-election of Joseph M. Terrell and all of the Democratic candidates for state offices, there being practically no opposition.

The one time aspirant for the Democratic nomination for president, W. B. Hearst, tangibly signified his acceptance of Judge Parker as the party nominee by being the latter's guest

at a dinner conference at New York last week.

John E. Andrus of Yonkers, N. Y., who was nominated for congress, is believed to be the richest congressional candidate in the country, being worth more than \$30,000,000.

The Republican congressional convention of the First South Carolina district, composed almost exclusively of colored men, has nominated John A. Noland, a white man. He was the only white man entitled to a seat in the convention.

In Russell county, Kan., Frank S. Rockefeller, a cousin of John D., is running for the legislature on the Democratic ticket with an antitrust platform.

President Wheeler of California university, after a visit to Washington, announced that Secretary of State Hay would remain in the cabinet in case President Roosevelt was elected.

Foreign.

Africans Crush Portuguese.

The people of Portugal were shocked Oct. 5 by the report of a disaster to their troops operating on the Cunene river, southwest Africa, against the native Cuanhamas tribes, neighbors of the Hereros. The Cuanhamas had recently revolted against Portuguese rule, and a detachment of 408 men had been sent to restore order. The natives ambushed the Portuguese and in a fierce attack killed or wounded 254. The unrest of the Cuanhamas is supposed to be influenced by the revolt of the Hereros against German rule. Germany is about to send 8,000 more troops to conquer the latter.

Against Spanish Bullfights.

By a vote of 13 to 8 the Institute of Social Reforms at Madrid ratified the absolute prohibition of Sunday bullfights. As Sunday is the popular day for these exhibitions, this action is thought to be the deathblow to bullfights in Spain.

World's Fair Receipts.

An official statement by the world's fair management shows that up to Oct. 1 there had been 7,705,000 paid admissions and total receipts from admissions amounting to \$3,950,885.

Legal and Criminal.

Christian Science Legalized.

The supreme court of New Hampshire has decided in the case of Mrs. Jenny Spauld of Concord to recover damages for injuries of treatment by a Christian Science practitioner that the practice of Christian Science in that state is lawful. Patients who have resorted to such treatment may not recover damages so long as the practitioner uses the accepted Christian Science methods. Such treatment is to be regarded as neither negligent nor deceitful and cannot be said to be contrary to public policy.

Alabama Judiciary Tangle.

By declaring the new judicial act passed by the Alabama legislature to be unconstitutional the supreme court of that state obliterated one-third of the Alabama court, including that at Huntsville, which was trying the case against the alleged lynchings of Horace Maples.

Edison Versus Edison.

On complaint of Thomas A. Edison, the famous inventor, the postoffice department has issued a fraud order against the Thomas A. Edison, Jr., Chemical company of New York and its officers debaring them from the use of the mails. This company has been advertising extensively what is known as "the magneto-electric vitalizer" as an invention of Edison's son which would cure most any disease. The investigation showed that the younger Edison had received a salary from the company for the use of his name. The promoters of the business say they are going to continue under a different name.

Seeking Battleship Assaults.

Rear Admiral Rodgers, commandant of the Brooklyn navy yard, on the day

following the launching of the new battleship Connecticut announced to the 3,000 employees of the yard that three attempts had been made to prevent the successful launching of the ship. He told them that he believed there was one or more scoundrels among them, and he expected all to aid in detecting the guilty persons. The nature of the attempts to damage the vessel showed that they had been made by one or more expert mechanics familiar with the construction of the great battleship.

Executive.

Cork Manufacturers Indicted.

Pursuant to the indictment found by the federal grand jury at Trenton, N. J., against the Nonpareil Cork works on a charge of placing iron in cork life preservers for the purpose of giving them extra weight and thereby saving cork, the officers of that company were arrested. A New York maker of life preservers discovered blocks of cork containing small bars of iron and gave the facts to the government.

Sounding For Peace Congress.

By direction of the president, Secretary of State Hay has sent inquiries to the principal countries asking if they would be willing to take part in another peace congress similar to that which assembled at The Hague.

Kongo Petition Fails.

It is understood that the government at Washington has decided not to intervene at present in the administration of the Kongo State, as requested by the foreign memorialists last week.

Wynne Takes Payne's Place.

First Assistant Postmaster General Robert J. Wynne was designated by the president as acting postmaster general pending the appointment of a successor to the late Mr. Payne.

The Soldiers' Clothing Contract.

President Roosevelt has suspended the war department's order for having the soldiers' clothing made by contract instead of by seamstresses in private homes, as at present. This action was in response to the appeals of a delegation representing women of Philadelphia who earn a living by making soldiers' clothing. An investigation of the system was ordered.

SOCIOLOGICAL

Gompers Answers Miss Addams.

In the current issue of the American Federationist President Gompers of the American Federation of Labor takes issue with Miss Jane Addams, the settlement worker, who, in the North American Review, writes of the present crisis in trade union morals. Miss Addams says it is "old comfort to say that the methods of labor organizations are 'no worse' than the methods adopted by certain organizations of capital, and she expresses the fear that the idealism of the unions is incompatible with and endangered by the necessity of 'practical and businesslike' methods. In reply Mr. Gompers says that trade union morality is higher than business morality or political morality and denies that there is any ethical crisis in the labor movement. He insists that the union or contract shop rests on the freedom of contract and collective bargaining. 'Since collective bargaining implies collective responsibility the union shop is the consequence.'

The prison reform policy of not requiring first term convicts to wear the traditional striped clothing went into effect for the 357 inmates of Clinton prison at Plattsburg, N. Y., on Oct. 2. Hereafter first termers will wear plain gray uniforms.

Convicts to Wear Uniforms.

The prison reform policy of not requiring first term convicts to wear the traditional striped clothing went into effect for the 357 inmates of Clinton prison at Plattsburg, N. Y., on Oct. 2. Hereafter first termers will wear plain gray uniforms.

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—MRS. FLORENCE DANFORTH, 1007 Miles Ave., St. Joseph, Mich.

A medicine that has restored so many women to health and can produce proof of the fact must be regarded with respect. This is the record of Lydia E. Pinkham's Vegetable Compound, which cannot be equalled by any other medicine the world has ever produced. Here is another case:—

"DEAR MRS. PINKHAM:—For years I was troubled with falling of the womb, irregular and painful menstruation, leucorrhoea, bearing-down pains, backache, headache, dizzy and fainting spells, and stomach trouble.

"I doctored for about five years but did not seem to improve. I began the use of your medicine, and have taken seven bottles of Lydia E. Pinkham's Vegetable Compound, three of Blood Purifier, and also used the Sanative Wash and Liver Pills, and am now enjoying good health, and have gained in flesh. I thank you very much for what you have done for me, and heartily recommend your medicine to all suffering women."—Miss EMMA SNYDER, 218 East Center-St., Marion, Ohio.

"FREE MEDICAL ADVICE TO WOMEN."
Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symptoms appear. It is free, and has put thousands of women on the right road to recovery.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

CASE CONTINUED.

Hubert Blessington, the youth who confessed to the larceny of two bicycles from a residence on Broadway, Sept. 7, was arraigned before Judge Rogers, Monday. It was shown that the boy is weak mentally and the court was in doubt about sentencing him on this account. The case was finally continued for four months and the boy was held in \$400 bail, which was furnished by his mother. The agent of the state board of charity was present to look after the case.

BETTER THAN PILLS.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by all druggists, Lawrence, W. A. Allen, Andover, C. H. Shattuck, Ballardvale.

Baptist Convention

depth the hand goes into the pocket to supply the church's needs. The men, who, when on a wreck and in extreme danger, felt the need of an appeal to Heaven and could neither preach nor pray, proposed to take up a collection, were not so far away from truth as we might at first thought suppose.

Money represents all the material things of life and its bestowal for the upbuilding of the kingdom of God on earth and the good of our fellow-men is as truly a sacrifice, acceptable to God, as the smoking lamb on the great altar at Jerusalem.

It gives the student of religious life today grave concern for the church when he analyzes the motives actuating those who contribute to her support.

Perfect piety would seem to require no solicitation of funds. Only to make known an opportunity to help a needy cause, and the help would be forthcoming.

But what are the facts? How many religious or charitable institutions can you name (outside of those endowed with some dead man's money) that are not obliged to beg, and to study the art of begging in order to live?

Thank God for the few who give because they love to help, who are glad to know of opportunity and who divide their benefactions conscientiously; for such, no plate, or bag, or box need to be passed along the pews in dumb appeal, but a notice that a box at the church door would hold offerings for a certain cause would be enough.

But it is to be learned that many give because they are ashamed not to, and a few, that they may be seen of men, both classes being thus controlled by pride. Some give to get rid of the importunities of the solicitor.

Societies compete with each other in arranging skillful plans for enlisting the sympathy and help of the people. We sing with fervor—

"I'll go where you want me to go, Lord."

Over river or mountain or sea."

—and mentally add—

Except it be into my pocket—

To that I will never agree.

It is easy to suggest difficulties but how to overcome them is another matter.

When the life of God in the soul of man takes complete possession, and he learns to look at earthly life in its true perspective, things that are near will look smaller, and the peaks on eternity's horizon, larger.

And though, as Hamilton Mabie so well says, "Life is a vast school, and what a man is or does after vacation no one has told us with any degree of accuracy we may well believe that what we shall be or do in the great beyond is largely influenced by the direction in which our lives are projected here."

O, if men would only learn to think large;—to take in the whole of life, here and hereafter, at a single view, how trivial these things that perish with the using would appear, and how ready to part with the material for the sake of the eternal would be.

"Make to yourselves friends by means of the mammon of unrighteousness, that when it shall fail they may receive you into the eternal tabernacles."

Mid-cloudy skies one star shines clear, 'Tis Duty.

To live, to love, to lift my fellow men;

To show in mine the Christ-life in its beauty,

—thy trust for things beyond my ken.

Rev. Orylle Coats of Lowell spoke on "Spiritual Growth Through Sacrifice and Service." He said in part:

"I think it may be safely assumed that the theoretical side of the subject of the day—the spiritual life—has been thoroughly discussed. That the New Testament ideal of the spiritual life includes as essential elements both sacrifice and service no one will question. That Jesus is the embodied manifestation of this life is an axiom. That life everywhere, from the minutest organism revealed by the microscope to the highest type which reflects the glory of God, grows by sacrifice and service is one of the great, fundamental laws of life long since recognized.

"What then is left for me to say upon this subject. Only this—to call attention to the practical needs, the near-at-hand opportunities and the divine rewards of sacrifice and service when associated with the spiritual life.

"We are here today not so much in our individual relation as representatives of the churches of which we are members. I shall look at my subject therefore from the point of view of the church rather than of the person.

"I recognize pressing need of sacrifice and service in the meagreness of resources compared with the immensity of resources at the command of the church. I should be a blind fatalist if I imagined that present conditions represent the satisfied will of God for the church of His Son. By results just now I mean conversion of sinners to Christ, involving regeneration and newness of life.

"I recognize this need in the constraining example of Jesus. If we are to be loyal to Him there is profound need of more sacrifice and service.

"Away with the idea that the old evangelism is extinct—that souls must be saved in some new and more aesthetic manner than formerly. While sin is sin and Jesus is Saviour and faith is the condition of eternal life we shall not see any radical change in the method of salvation. When a man tells me that revivals are outgrown, that work for individuals is passe, that what is needed now is a campaign for social salvation, I know that he knows very little about evangelical Christianity."

Mr. Coats then said a few words on the divine rewards of sacrifice and service.

Evening

The address of the evening was delivered by Rev. George H. Ferris of New Haven, Conn., who took for his subject "Above Every Name." His address was very scholarly and ably delivered. He said in part: "How men strive for a name, amid the loud cry and mumbling of the street, on the far off hills, red with the blood of slave or mongolian, on the mountain and seashore, amid fashionable places, and destitute places, how men strive for a name! Men who erected pyramids, palaces, caves or other great works of art did it solely that their name might be perpetuated. Jesus did not build any great and beautiful temple to show to posterity what a wonderful man he was. He lived the life of a simple Nazarine going about the country preaching, healing and saving the souls of men."

"Great men have been forgotten but the words of the Lord were never so golden as they are today or his acts so lustrous. They come to us in a concentrated light and all things go before it. Wherever a step of Christ rests what wonderful things spring up. When he gave that great command, 'Go ye into all the world and preach the gospel to every creature' it was then that hospitals, schools, kindergartens and all elevating institutions sprang up."

"Men of yesterday and today performed wonderful acts but Christ is the leader of all. It took a good deal of heroism and devotion for men to go into a wild country amid savages and teach the gospel but these men could not say as Jesus said, 'Come unto me all ye that labor and are heavy laden and I will give you rest.'"

In concluding Mr. Ferris said, "Our star still goes before us and it will never go down, it will shine above the heads of our humanity whatever leads us astray. It will come at will and cause darkness to disappear. Then we will follow our guiding star."

SUDDEN DEATH OF INSPECTOR JOHN CULLINGTON.

John Cullington who for the last ten years has ably filled the position of plumbing inspector of the local board of health, died at 11.20 Sunday night at his home, 126 Saratoga street. The end came very suddenly and unexpected. For the past week Mr. Cullington had been feeling poorly but nothing of a serious nature was anticipated until Saturday noon when he became so ill that he was obliged to leave his duties. On reaching home he became seriously worse. Medical aid was summoned but nothing could be done to relieve the agony of the dying man. Peritonitis, followed by a rapid weakening of the heart, was the cause of his death.

JOHN CULLINGTON.

John Cullington was born in England in 1836. In 1871 he emigrated to this country and has since remained a resident of this city. He opened a plumbing establishment on Broadway, where he was located until his appointment to the position he so ably filled until his death.

Mr. Cullington was married three times. First to a Miss Berkenshaw in England, who bore him three children; Oswald, sanitary inspector of the board of health, Mrs. John Cray of Haverhill and Mrs. Anthony O'Connor of Holly street. For his second wife he chose Miss Annie Burke of this city and in 1890 he married Miss Catherine Hohner by whom he had one child, Ethel, now three years old. Besides his children he is survived by several brothers and sisters in England.

Mr. Cullington was a member of Court Montgomery, F. of A., and Lawrence council 67, K. of C. He has been president of the State Association of Plumbers and Pipefitters and has held many other offices where ability and good judgment were essential.

Mr. Cullington was a man of character, firm and strong, with convictions that bore the stamp of honesty. He impressed all with whom he came in contact, with his rugged worth and sterling character.

Funeral services will be held Wednesday. Final arrangements have not yet been completed.

PROBATE COURT AT HAVERHILL.

At the probate court held by Judge Harmon at Haverhill Monday, the will of Elizabeth B. Griffin of Newburyport was proved.

Inventories were filed of estates of: Eliza G. Rink, Gloucester, \$3590; Mary Kitchin, \$1523.25; Henrietta F. Smith, Swampscott, \$1000; Francis Spaulding, Newburyport, in trust for Oliver B. Spaulding, et al., \$2194.37; Wm. Truesdale, Salisbury, \$550; Elizabeth Turner, Lawrence, \$8075; Sarah E. Wilson, Salisbury, \$492.47; Rebecca A. Pierce, Salem, \$125; Mrs. E. Brown, Newburyport, \$1911.72; Mrs. E. Burnham, Lawrence, \$765.50; Alphonso Caswell, Maderbury, N. H., \$2000; Mary Cullen, Gloucester, \$800; James Denehy, Salem, \$589.68; Gervais Dion, \$431.25; Maria M. Durant, Lawrence, \$50.87.76; John Flakfield, Salem, \$1240.24; Ebenezer B. Harter, Marblehead, \$18,192.23; Elizabeth H. Hunt, Newburyport, \$23,178; Sylvester Needham, Peabody, \$10,159.87; Edward Peabody, Middleton, \$400.

"The Carnival of Holidays" on Dec. 2 will contain several novel and unusually interesting features. One will be the "quotation calendar" and another, the "international doll exhibit," collected and owned by Mrs. Horton of Boston, which has travelled by sea and land, like many other Boston ideas, all over the country, California, Florida, Georgia, Vermont, Omaha exposition, Kansas, Nebraska, Chicago, Cincinnati, New York and many other places—in fact the interest in and demand for it has been well nigh universal, and it has earned for children's charities over fifty thousand dollars. It was exhibited in Lowell four years ago at the city fair in aid of the hospital and was visited by nearly a thousand people and at the close the Lowell ladies presented a doll to the exhibit named Lucy Larcom. Dolly Madison was given by Washington ladies and the Massachusetts doll was named Priscilla Alden by vote of the school children of the Bay State. Her puritan costume has been copied many times. One doll was presented by the Queen of Roumania, and there are dolls from Hawaii, and a collection of Indian dolls, which has been difficult to make on account of their significance to their people. Children, of course, regard the dolls as playthings, but wherever exhibited it never fails to attract the serious attention of children of a larger growth. Parents and teachers as well as children should see this collection which awakens not only interest in dolls but in the study of child life. In fact men and women of all ages who have seen it once want to see it again. It is a unique collection which has become noted all over the country.

AN HONOR TO PHILLIPS.

At the Phillips Academy Commencement dinner last June was a graduate who has had an interesting history and who holds a unique position in the country's life. Rufus Tripp King of Nashua, N. H., is the oldest railroad engineer in active service in the United States. In all of the 55 years of his holding the throttle of the engine, only one person has been killed. Mr. King is 72 years of age and with engine number 112 makes daily trips between Nashua and Nashua. He has served in the common council and the board of aldermen of the city of Nashua.

Columbia, "The Uncolored Catsup," is a "pure food" product. Made by a new process without artificial coloring matter of any kind. It has the natural red and flavor of the perfect, ripe tomato. Ask your grocer for "pure tomato catsup" without artificial coloring matter, and you will get Columbia.

COLONIAL THEATRE

"LITTLE CHURCH AROUND THE CORNER."

In the "Little Church Around the Corner," Marion Russell is said to have written a play that will live in the hearts of men, women and children. It is said to contain a clean, moral story of intense heart interest, with comedy scenes so naturally funny, that dull care is swallowed in bursts of spontaneous laughter. The scenes and action are skillfully manipulated, and lead up to climaxes that are stirring and consistent. The play will be presented at the Colonial theatre on Monday, Tuesday and Wednesday, Oct. 17, 18, 19. There will be matinees every day. Matinee prices, 10, 15, 25c. Popular prices at night, 15, 25, 35, 50c.

"A GAME OF HEARTS."

In his drama, "A Game of Hearts," Mr. Channing Pollock (author of the famous play, "The Pit") has pictured with rare fidelity the doings of various residents of a well known town, which for stage purposes is disguised under the name of Rocky Gulch. Just prior to the opening of the story as depicted by "A Game of Hearts," a man named Martin had died leaving two daughters, Anna, the heroine, and her mad-cap sister, "Tatters." The only property left to the girls is a rock quarry, and not being able to work it themselves, they secured the assistance of one Lawrence Aiston, who turns out to be a villain. Of course there is a hero, Jim Manners, and after many exciting incidents, everything comes out right. A race for life is not only the most exciting incident of "A Game of Hearts," but rivals anything in the mechanical line ever attempted on the stage. This exciting drama will be performed at the Colonial theatre for three nights and three matinees, beginning Thursday, Oct. 20. Matinee prices, 10, 15 and 25c. Popular prices at night, 15, 25, 35 and 50c.

HARVEST FESTIVAL AND FARMERS' SUPPER.

At the Methodist church this evening occurs the harvest festival and farmers' supper. Great preparations have been made for an excellent time, particularly in the line of an entertainment after the supper. Everybody should attend.

MAY FORM ROUGH RIDERS CLUB.

It is possible that an independent Republican campaign club will be formed in this town among the enthusiastic promoters of such a scheme. If the club is not formed there will be a dozen or more young men who will seek admittance to the ranks of the Roosevelt Rough Riders, a prominent Lawrence club.

GADUOL.

The United States dispensary thinks it probable that the real virtues of cod-liver oil reside in an active principle or principles. Gadulol is the alcoholic extract of the active principles of cod-liver oil. It produces a stimulant and alternative effect on the processes of nutrition and absorption, it does not disturb the appetite or affect the stomach. A wine of cod-liver oil prepared from Gadulol is a favorite tonic and has a large sale wherever introduced.

CAUSE OF LOCKJAW.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all druggists. ANDOVER NEWS.

Rapid Transit.

People who are called to take a morning trip toward Salem are obliged to wait from 8.35 till about 9.20 at the inconvenient station at Wilson's. Unless you choose to ride to Lawrence on the 8.15 car which insures a wait at the salubrious Lawrence Transfer station. I would advise the Reading, Saugus and Peabody route for the winter in the morning for feeble and crippled. Also for a business man who loses the 7.45 that connects with the Salem and Lowell promptly at Meadow View in North Reading, the Saugus Peabody route is to be commended. Any car that leaves the Hill at quarter before the hour connects at the Saugus line with the Salem Willows car that sets itself to wait for such transfers. I found it very safe and comfortable during ten years of travel before our brick Danvers road came on. If you miss the Salem and Lowell therefore at 7.45 go back and get a second breakfast and start at 8.45, reaching Salem promptly at 10.45. Fare is 25 cents either way. The next car on the Danvers Road leaving at 9 o'clock insures a journey to Lawrence at 8.15, a wait there of 15 minutes, arriving at Salem 10.30. You are on the road in any way they have now arranged it two and a quarter hours if you try to avoid what I call a dangerous menace to the health by the Wilson's crossing wait of over 35 minutes. If the Danvers road would run an extra car to Salem at 8.15 to accommodate the early goers, who now avail themselves of the generous Boston & Maine rebate of \$2.35 for ten trips from Meadow View, they would pick up a good many either side of Wilson's who otherwise will return to steady for the winter. At night, no connection for Andover Square at least is complete and does not give more than ten minutes added for Haverhill bound patrons. While we all approve of the new bridges and renewed tracks necessary for our safety and would willingly walk to accommodate the road and pay them for the privilege, we do hope and pray that the time will soon come when a generous and long headed corporation such as our old B. & M. has shown itself to be these long years, will control these suburban feeders to the mutual benefit of both public and company.

Association Football.

The Methuen association football team, defeated the Andover team on the Barker street grounds Saturday afternoon by the score of 3 to 0.

The game was hard fought and some very brilliant plays were made on both sides.

Hughes played a star game at goal for Andover, making some good stops. Britton, Jennings, Ford and Lamb played well for Methuen. Ankers, Collins and Hamer scored for Methuen.

The lineup:
Methuen—W. Teale, goal; B. Atkinson, W. Briggs, full backs; P. Lamb, W. Hamer and W. Ford, half backs; H. Ankers, J. Collins, T. Littleton, J. Britton and P. Jennings, forwards.
Andover—C. Hughes, goal; S. Fraser and W. Matthew, full backs; W. Stirling, A. Haddon, A. Matthew, half backs; D. Falconer, J. Fee, J. Matthew, E. Anderson, R. Cairnie, forwards.
George Mack was linesman, and T. Lynch Frazer of Fore River, referee.

Fined for Transfer Frauds.

Five prominent merchants of New Haven, Conn., Louis C. Loomis, Frank Murray, John Gilbert, David A. Burroughs and Henry A. Smith, paid fines ranging from \$4.85 to \$34.85 a few days ago for trying to defraud the local trolley company by "passing along" transfers. All pleaded guilty.
